

## 6 Sylvan Gardens Conservation Area

Featuring Chatham's first ADA accessible trail, the Rolf E. Sylvan Gardens contains almost 10 acres of woodland and views overlooking White Pond and Black Pond. Four other rustic trails traverse a variety of settings leading visitors through deep woods and open areas to broad pond views. It is a green refuge for plants, wildlife and people. Rolf Sylvan cultivated a commercial nursery here in the 1960's and it is now an interesting mix of ornamental plants and native species.

Parking and access is on Old Main Street off Route 28 in West Chatham. One handicap and three regular spaces are available along the road.
